

Long Term Care Insurance Potential Rate Increase Disclosure Form

Premium Rates

Premium rate that is applicable to you and that will be in effect until a request is made and approved for an increase is shown on the application. The premium rate for this policy is also shown on the schedule page of your policy.

Premium Adjustments

Any change in premium will be effective on your Policy Anniversary Date.

Potential Rate Revisions

This policy is Guaranteed Renewable. This means that the rates for this policy may be increased in the future. Your rates can NOT be increased due to your increasing age or declining health, but your rates may go up based on the experience of all policyholders with a policy similar to yours. If you receive a premium rate increase in the future, you will be notified of the new premium amount and you will be able to exercise at least one of the following options:

- Pay the increased premium and continue your policy in force as is.
- Reduce your policy benefits to a level such that your premiums will not increase. (Subject to state law minimum standards.)
- Exercise your non-forfeiture option if purchased. (This option is available for purchase for an additional premium.
- Exercise your contingent non-forfeiture rights.* (This option may be available if you do not purchase a separate non-forfeiture option).

*Contingent Non-Forfeiture

If the premium rate for your policy goes up in the future and you didn't buy a non-forfeiture option, you may be eligible for contingent non-forfeiture. Here's how to tell if you are eligible:

You will keep some long-term care insurance coverage, if:

- (a) Your premium after the increase exceeds your original premium by the percentage shown (or more) in the following table; and
- (b) You lapse (not pay more premiums) within 120 days of the increase;

The amount of coverage (i.e. new lifetime maximum benefit amount) you will keep will equal the total amount of premiums you have paid since your policy was first issued. If you have already received benefits under the policy, so that the remaining maximum benefit amount is less than the total amount of premiums you have paid, the amount of coverage will be that remaining amount. Except for this reduced lifetime maximum benefit amount, all other policy benefits will remain at the levels attained at the time of the lapse and will not increase thereafter. Should you choose this Contingent Non-Forfeiture option your policy with this reduced maximum benefit amount will be considered paid up with no further premiums due.

Example: You bought the policy at age 65 and paid the \$1,000 annual premium for 10 years, so you have paid a total of \$10,000 in premium. In the eleventh year, you receive a rate increase of 50%, or \$500 for a new annual premium of \$1,500, and you decide to lapse the policy (not pay any more premiums). Your paid-up policy benefits are \$10,000 (provided you have at least \$10,000 of benefits remaining under your policy).

Contingent Non-Forfeiture

Cumulative Premium Increase over Initial Premium that qualifies for Contingent Non-Forfeiture. Percentage increase is cumulative from date of original issue. It does NOT represent a one-time increase.
